## SUMMARY

Innovative Developer with expertise in AI integration, scalable frontend, and backend development. Proficient in building web applications using the MERN stack and Next.js, with hands-on experience in AI-powered features. Improved application performance by 25% and designed backend architectures capable of handling 1,000+ concurrent users. Passionate about leveraging **AI integration** and **modern web technologies** to build impactful, high-performance software solutions

## EXPERIENCE

**Elite Coders — PR & Outreach Team**
**Nov 2025 – Present | Remote**
- **Led event communication and outreach across global developer communities.**
- **Built engagement with 500+ mentors and contributors.**

**Hacktoberfest — Maintainer & Contributor**
**Oct 2025 – Present | Remote**
- **Maintained DevPocketopen-source project; improved collaboration and workflow.**

**GirlScript Summer of Code — Contributor**
**Oct 2024 – Nov 2024 | Remote**
- **Contributed to open-source projects and enhanced code quality.**

**Hacktoberfest — Open Source Contributor**
**Oct 2024 – Nov 2024 | Remote**
- **Contributed to global repositories and improved project performance**

## PROJECT

**MediAI** - Medical Voice AI Agent | Personal Project | GitHub
**https://medical-voice-ai-agent-vqa8.vercel.app/**
- **Developed** an AI-powered virtual doctor using **Next.js, TypeScript, and AssemblyAI**, delivering real-time voice-first medical consultations.
- **Integrated Clerk authentication** and **NeonDB storage** to ensure secure patient data management.
- **Enhanced** accessibility for patients by **40%** through natural language voice-first interactions.
- **Deployed** on cloud infrastructure with secure APIs, ensuring scalable performance across devices.
- Tech Stack: Next.js, React, TypeScript, Clerk, AssemblyAI, NeonDB

MICS -Multi-LLM Chat System | Personal Project | GitHub
https://multi-llm-chat-ne88.vercel.app/

- Engineered a **Progressive Web App (PWA)** using **Next.js** and **React** for real-time interaction with **GPT, Gemini, and Claude** models.
- Implemented **secure API key management**, persistent chat history, and export functionality to enhance **data reliability and integrity**.
- Designed a **multi-chat comparison interface**, improving **user engagement by 35%**, and deployed on **Vercel** for **scalable, low-latency global performance**.
  **Tech Stack:** Next.js, React, TypeScript

**PromptGenius – AI Prompt Enhancer** | Personal Project | GitHub | Demo

- Built a Chrome extension that transforms basic prompts into optimized, CRISPE-formatted AI prompts for any model.
- Designed a sleek, responsive UI with a client-side processing engine, enabling instant results with no API keys required.
- Enhanced prompt structure and clarity, improving AI response quality and consistency across multiple model types.
  Tech Stack: JavaScript, HTML, CSS, Chrome API

## EDUCATION

Bachelor of Engineering in Computer Science | Marwadi University
Rajkot, Gujarat, 2027
- Data Structures and Algorithm ; Operating Systems ; Object Oriented Programming ; Linear Algebra ; Calculus ; Cloud Computing Essential ; Data Science Essential ; Machine Learning ;

## CERTIFICATIONS

Explore Machine Learning using Python | Infosys Springboard
2025

AWS Academy Cloud Foundations | AWS Academy Graduate
2025

## SKILLS

**Soft Skills:** Teamwork, Communication, Project Management, Agile Methodologies
**Software/Tools:** Vercel, Netlify, Render, AWS, Git & GitHub, RESTful APIs, JWT Authentication, Tailwind CSS, ShadCN UI, Cloudinary
**Programming Languages & Frameworks:** C++, MERN Stack (MongoDB, Express.js, React, Node.js), Next.js, TypeScript
**AI & Machine Learning:** AI API Integration, Prompt Engineering, AI Model, n8n
